Faculty/Permit Number:

SOLID WASTE FACILITY PERMIT

15-AA-0062

12. Legal Description of Facility (attach map with RFI):

SW/4 of Section 21 and NW/4 of Section 28., T32S,R34E, MDB&M

County of Kern State of California

anne i de la compaña

The considerable from the second

13. Findings:

- a. This facility is identified in the County Integrated Waste Management Plan. Sitting Element, approved by the California Integrated Waste Management Board (CIWMB) on November 20, 1996. A revision of the Siting Element was adopted by the Kern County Board of Supervisors on April 25, 2000 (Resolution 2000-127) and by a majority of the cities with a majority of the population during March, 2000. This facility is consistent with the Revised Siting Element, dated April 25, 2000, as required in Public Resources Code, Section 50001(a)(1).
- b. This permit is consistent with standards adopted by the California Integrated Waste Management Board as required in Public Resources Code, Section 44010.
- c. The design and operation of the facility is in compliance with the State Minimum Standards for Solid Waste Handing and Disposal, as determined by the Local Enforcement Agency.
- d. A Negative Declaration has been completed and a Notice of Determination has been filed with the State Clearinghouse, SCH #97091004, as required in Public Resources Code. Section 21081.6.
- e. The Kern County Planning and Development Services Department has made a determination that the facility is consistent with, and designated in, the applicable general plan, as required in Public Resources Code, Section 50000,5(a).
- f. The Kern County Planning and Development Services Department has made a written finding that surrounding land use is compatible with the facility operation, as required in Public Resources Code, Section 50000.5(b).

14. Prohibitions:

The permittee is prohibited from accepting liquid waste sludge, nonhazardous waste requiring special handling. designated waste, or hazardous waste, unless such waste is specifically listed below, and unless the acceptance of su waste is authorized by all applicable permits.

The permittee is additionally prohibited from the following items:

Scavenging by the public

Disposal of drugs, poisons, or pesticides

Burning of wastes or receipt of hot or combusting wastes or wood stove ashes

The salvaging of cosmetics, food, beverages, or any materials capable of impairing public health

Receipt of untreated medical wastes

The following documents also describe and/or condition the operation and use of this facility and were considered in 15. making the above findings and in determining the conditions incorporated into this permit to ensure the protection of public health and safety and the environment:

Report of Facility Information	April 1999, amended April 2000
Land Use Permits - CUP#3, Map 167	
Financial Assurance Demonstrations	<u>Mav 10, 2000</u>
Preliminary Closure/Post Closure Plan	November 4, 1996 deemed complete
Negative Declaration SCH #97091004	

In addition to this permit, the facility may have one or more of the following permits or restrictions on its operations. Persons seeking information regarding these items should contact the appropriate regulatory agency.

Waste Discharge Requirements	California Regionai Water Quality Control Board - Lahontan Region
Air Pollution Permits and Variances	Kern County Air Pollution Control District
Fire Protection District Findings	Kern County Fire Department
Contractual agreements between operator	and contract operator

SOLID WASTE FACILITY PERMIT

15-AA-0062

15-AA-0062

LEA Conditions

17.

- 1. This facility shall be operated in compliance with State Minimum Standards for solid waste handlin and disposal.
- 2. This facility shall be in compliance with federal, state, and local requirements and enactments including mitigation measures given in any certified applicable document filed pursuant to Publi Resources Code, Section 21081.6.
- 3. Additional information concerning the design and operation of this facility shall be furnished upon written request of the Local Enforcement Agency (LEA).
- 4. Site access shall be granted for the purpose of inspection without prior notification to the LEA o other agencies conditioning this permit.
- 5. The operator shall notify the LEA, in writing, of any proposed changes in the routine facility operation or changes in facility design during the planning stages. In no case shall the operator undertake any changes unless the operator first submits to the LEA a notice of said changes at leas 150 days before said changes are undertaken. Any significant change, as determined by the LEA would require a revision of this permit.
- 6. The LEA, through this Solid Waste Facilities Permit, may prohibit or condition the handling of disposal of solid wastes to protect the public health and safety, protect and rehabilitate, or enhance the environment, or to mitigate adverse environmental impacts.
- 7. The operator shall maintain a copy of this permit at the facility so as to be available at all times to facility personnel and to Enforcement Agencies' personnel.
- 8. The LEA reserves the right to suspend or modify waste receiving operations when deemed necessary due to an emergency, a potential health hazard or the creation of a public nuisance.
- 9. The owner or operator shall record and retain an operating record at the address of the owner operator noted on this permit or another location approved by the LEA, as per Title 27, CCR. Chapter 3, Article 1, Sections 20510 and 20515.
- 10. Alternative Daily Cover (ADC) not specifically described in the ADC standards shall be applied in a manner consistent with an approved pilot study.
- 11. This facility shall be maintained in compliance with the flammable clearance provisions, pursuant to Public Resources Code Section 44151.
- 12. The operator shall notify the LEA, within 24 hours, of any reduction in hours of operation. The operator shall not exceed the permitted hours of operation.
